

Historic Review Board
Minutes of September 7, 2015 meeting

Present: Tom Ries, Robert Scott, Edward French, Jean Schild, Chris Brown

Chris Brown requested a Certificate of Appropriateness for renovations of Wadsworth's facade. The request came late because Wadsworth's was not on the list used and it wasn't realized they needed the certificate so the penalty for a late request was waived.

State-approved plans are being used for the renovations. Bead board is being used throughout town to replace coal chutes and Wadsworth will do the same. Some old architectural features will be put back that are now covered up. Muted time period colors approved by the state will be used on the exterior.

Motion: To accept the plans and colors as submitted and to grant a Certificate of Appropriateness. Approved

Adjourned 5:25pm
