Schools—Spear, Morse, Jewett.  
Sewers—McGregor, Clark, Jewett.  
Street Lights—Hutchison, Morse, Firth.  
Taxes—Morse, Firth, Spear.  
Water—McGregor, Morse, Spear.

## MAYOR'S ADDRESS

---

To the Honorable Board of Aldermen:

Gentlemen:-

In submitting my annual report for the fiscal year just closed, I first wish to thank you as members of the Council for your undivided support and conscientious attention to the details of city government intrusted to your care. To your aid and advice I attribute whatever measure of success has attended the city government in 1916.

The year just closed has been one of unusual demands; matters impossible to have foreseen at the time appropriations were made arose unexpectedly and necessitated payment from any funds available. Hence, many accounts are overdrawn which otherwise would have shown a comfortable balance on the other side of the Ledger, notably, the Company I Relief Fund—nine hundred and forty six dollars (\$946.00). This, we hope will be refunded by the State, a bill having already been introduced by our Representative, Mr. H. E. Nicholas, to that effect.

### School Board

Six hundred dollars were required to purchase the small house at the corner of Middle and Boynton Sts. While it was not absolutely necessary to purchase this property, it was, in the opinion of the city government and many citizens, a step in the direction of clearing the school grounds and as the owner was willing to sacrifice two hundred and fifty dollars (\$250) in order that the city might profit thereby, it would, in my opinion, have been very unwise to have allowed the opportunity to pass.

The Toll Bridge repairs which we thought could

---

easily be kept within the amount due from the State, we found to be in such condition that the cost to the city amounted to \$384.53 in excess of the sum allowed by the State. And repairs on the North End Bridge amounted to \$910.06.

This also was election year and the three elections and two primaries cost the city eight hundred dollars.

Those unusual expenditures have caused some of the accounts to be overdrawn, but every dollar has been spent in the interest of the city. The Trial Balance however, shows an increase in the net debt of the city of only \$308.24.

### **Fire Department**

This department of the city government must have, or at least deserves, more attention from the citizens, especially property owners. Its needs should be the subject of much study and I hope will receive the consideration they require. The rate of insurance in the residential section of the city has been increased and without doubt that of the business section will soon follow, unless new equipment be added to the department. It is a matter which I recommend for the consideration of the incoming government. In this connection I wish to extend to Chief Bradish and his entire department the appreciation of the city government for their prompt response to alarms and their devotion to duty.

### **Police Department**

The Police Department under City Marshal Harry L. Follis has maintained its usual reputation and the officers have responded promptly and cheerfully to all demands made upon them. The discovery, almost immediately, of the breaking of one of the larger show windows on Water Street during the terrific storm of last December gave evidence of the watchful alertness of the department.

### **Cemetery**

It was necessary at the beginning of the year to find a new superintendent for the cemetery. The Council selected Mr. Andrew Lee, who has performed the duties of the office with careful, conscientious endeavor. It will soon be necessary to build a new fence around the cemetery, and I would recommend replacing the old with a suitable iron fence and building each year what the department can afford.

### **Poor**

Mr. William R. Farris has devoted to this department the same scrupulous care which has marked his administration of the department in the past. All worthy poor have received necessary and efficient aid, while those more fortunate have been assisted along the lines of prudence and independence.

### **Street Department**

Mr. Charles Spear has given this department great care and the result of his many years' experience in roadmaking. The heavy snows of February and March, November and December 1916, and the unprecedentedly heavy rains of the past summer made inroads upon his appropriation and caused the expenditure of five hundred dollars (\$500.) over what should have been necessary in ordinary years. The Inspector of State and Highways has pronounced the State Road built this year one of the best in the State. Mr. Spear seems to be the right man in the right place.

### **Taxes**

Mr. William M. Emery who was appointed Collector of Taxes last Spring, has, despite his several months' absence on the Mexican border, collected all the taxes. A page of commendation could say no more. The city is to be congratulated that for the past five years not one dollar of uncollected taxes shows on its books.

In summing up I should like to suggest the advis-

---

ability of establishing a sinking fund for the purpose of paying as nearly as possible the bond issue of \$25,000 due in 1937 and for the payment of which no provision has been made. I will not go into detail in this connection as the matter was discussed quite fully in the press last Fall. I should, however, like to call to your attention the following figures:

The bonded indebtedness of the city is \$66,000; the debt limit of the city is (5 per cent of total valuation) \$92,875.50, leaving a comfortable margin of \$26,872.00. This, gentlemen, with our school buildings and such other property, places the city in a position which, while there is yet much to be accomplished, is far from discouraging.

I wish to call the attention of this Board and our immediate successors to the fact that the city has been the recipient of a gift from the estate of the late Jesse G. Shead—the splendid new High School building, to be known as the Shead Memorial High School. And I urge that such action be taken by the city government in behalf of the citizens of Eastport in accepting this superb gift as will in a measure convey appropriately our appreciation, in order that not only this generation, but future generations as well may esteem the generosity of one who loved Eastport and had its welfare at heart.

The coming year will find another problem to be solved by the city. Boynton High School will be vacated and it has been suggested that it be used as a central fire house. It is well located and undoubtedly large enough for that purpose. If this should be done, it leaves the Engine House, Hook and Ladder House and the Brooks School building for which the city will have no use. Possibly the Engine House could be used for a City Hall. It might be well to consider this, as it would save three hundred dollars per year rental.

I would suggest that the disposition of the old

buildings and the addition necessary to the Poor House be referred to a non-partisan committee of citizens for the purpose of investigating the matter and reporting their recommendations to the Council. In my opinion this would be an invaluable aid to the Council in adjusting this important matter.

In conclusion let us hope that in the near future ways and means may be found to pave Water Street and that a proper sewer to low water be installed, in order that no more sewage be discharged into our docks.

Let us be proud of our city and rejoice in the fact that we had the honor of being the only community in Washington County to send a Company of the National Guard to the Mexican Border. Also let us remember that our harbor provided anchorage for a flotilla of warships with room for as many more and this without interfering with the water traffic in our busy season. Let us not forget our splendid school buildings. There are of course many things upon which we would improve and to that end let us put forth our best endeavors.

FRED T. ELDRIDGE, Mayor.

**REPORT OF THE SUPERINTENDENT OF SCHOOLS**

---

To the Members of the School Board:-  
Gentlemen:

I hereby submit my fourth annual report of the public schools of Eastport, the twenty-fourth in the series of reports.

The year has been one of excellent progress and has been characterized by most helpful co-operation of teachers, school officials, parents and other citizens. The teachers have shown unusual interest in their work and have as a whole, made good use of all opportunities to improve themselves professionally.

#### CHANGES IN TEACHERS

Miss Jennie Grindle Principal of Boynton High, resigned at the end of the school year after five years of successful teaching in our city. During the year of 1915-16, she was principal of Boynton High School and both as a teacher and as a principal she gave satisfaction to all.

Her interest in the pupils, her ability as an instructor, and her strong personality marked her as one of our best teachers.

Arthur St.Onge also resigned at the end of the spring term to accept the principalship of a high school elsewhere. We also lost by resignation Miss Helen Hanson who had done excellent work in the English department during the year. Thus with the exception of Mr. Sawyer, a new corps of high school teachers was made necessary.

Ashley StClair of Calais was elected as Principal, and Virginia Nickerson of the same place was elected as teacher of English.

Miss Angie Purinton of Bowdoinham, Maine and Grace E. Jordan of N. Stratford, N. H. were elected as assistant teachers.

The employment of an additional teacher was made

necessary by the increase of pupils and the division of classes.

Even the removal of the commercial students into the Brooks Building has not wholly relieved the crowded condition existing in Boynton High, and the work of the school has been retarded by the condition under which the pupils and teachers have had to work.

Notwithstanding this difficulty the work of the different teachers is worthy of the highest praise. For a more detailed account of the work and needs of your high school I call your attention to the report of Principal StClair.

#### CHANGES IN THE GRADES

In the grades we have been fortunate in retaining most of our teachers, the election of Margaret Goulding and Helen Murphy to the Grammar School and of Winnifred Murphy to Eastport Primary being the only changes. The work of the year has been most successful. I would call your attention to the especially good work being done by the teachers and pupils at the South End School; and I wish to commend Miss Huntley and the pupils of the Out Island School. The good work of the other teachers is too well known for special mention at this time.

#### EASTPORT'S EDUCATIONAL BUILDINGS

The erection of the Shead Memorial High School building will complete a set of educational buildings of which the city may well be proud. You have a splendid educational plant.

But the success of your schools in the future is going to depend on the kind of teachers you keep in the different buildings. With few exceptions the trained and experienced teacher is going to do better work, and is going to demand a better salary. It is false economy to erect costly school buildings and equip them with the best of apparatus and text books and not to employ the very best of teachers.

### PHYSICAL EDUCATION OF PUPILS

Now that we are to have a gymnasium in the High School building, the need of some teacher who can act as a physical instructor becomes apparent to all. By this I do not mean simply a "coach" who will turn out a "winning team," but rather a teacher who will not only coach the different school teams but will also aim to develop the health and strength of each pupil.

The employment of a sub-master in the High School who will be able to train the boys and girls in their physical development is one of the needs of your city.

### SCHOOL PHYSICIAN

I would at this time call to the attention of the School Committee and also to the City Council the necessity of medical inspection in our schools. It is being more clearly recognized that the public is under obligation to provide every possible precaution against any school condition that may aggravate physical defects, and to safeguard children, as far as possible, from the dangers of contagion. There is need in your city for medical inspection. The highest efficiency of your schools demands such a school physician, and the State in 1909 made provision for the employment of school physicians. At the present time, 11 cities and 47 towns in Maine have medical inspection. The cost varies from \$50.00 to \$1,000.00 per year, the average cost being about \$100.00

### ELSON ART EXHIBIT

In December the teachers of the grade schools held a successful Art Exhibit at the Primary School which netted them about \$125. This money has been expended in suitable pictures for beautifying the different school buildings.

Any work like this on the part of the teachers and pupils which results in the school room being a more

---

beautiful and instructive place in which to work is to be commended.

#### SCHOOL SUPPLIES AND SCHOOL PAPER

I agree with those who believe that paper, pencils, blanks, etc, necessary for the pupil's work should be purchased by the city. These different supplies can be bought much cheaper in large quantities by the city than they can be bought by the individual pupils. The increased cost of paper alone would make fifty cents per pupil a low estimate for additional expense if we are to furnish all the supplies.

As there are approximately 1000 pupils in our schools, this would mean \$500. added to the appropriation for school supplies if the move is thought best by the Committee.

#### HIGH SCHOOL LIBRARY

Increasing emphasis is being placed by the State Department upon the course in English being offered in the high schools of the state. While at this time it does not define requirements, it emphasizes very strongly the value of a high school library as a necessary adjunct to the English department. Not only in the study of English, but in all the departments of the high school the library is becoming more and more necessary.

During the past year the State has issued a general plan of the nature and extent of such a library as is needed to meet the demands of a growing and progressive school. In the new high school building we shall have a room set apart for such a library and we must see to it that the shelves do not become filled with antiquated books, government reports, and sets of books which are for the specialist. The value of our high school boys and girls who are students in that high school is going to be pretty accurately measured by the use which the pupils make of the high school library. As citizens we should see to it that the library placed in the Shead Memorial High School is one of the best.

For that purpose I urge that a generous appropriation be made by the Committee separate from and in addition to the regular appropriation for schools.

#### FINANCIAL

The increase in the cost of all material during the past year will have its effect upon the cost of our schools. The running expenses of our schools are going to be more in the future than they have been in the past. It will be impossible to maintain successful schools in the city of Eastport for less money than it is costing elsewhere in the State.

The money appropriated by the city for common school purposes should be a separate appropriation and should be increased.

The following figures from the Maine School Report of 1915 show that while the percentage of valuation raised for municipal purposes in the City of Eastport is above the average of the State, the percentage of valuation raised for common school purposes is much below the average of the State.

Percentage of Valuation Raised for Municipal Purposes,	
State,	0244
Washington County,	.0286
Eastport,	.03
Percentage of Valuation Raised for Common Schools,	
State,	.0029
Washington County,	.001
Eastport,	.0014
Amount raised per Scholar by Local Taxation,	
State,	\$ 3.20
Washington County,	2.39
Eastport,	1.56
Amount Available per Scholar for Com Sch. Purposes,	
State,	\$10.86
Washington County,	9.15
Eastport,	7.95
Nearly all the appropriations for schools must be	

increased if the same successful work is to be maintained during the coming year.

Realizing that the success of the schools is due largely to the efforts of the individual teacher, I wish in closing to thank each teacher for her assistance in making the school year a successful one. I wish also to express my appreciation to the School Board for their helpful suggestions and uniform kindness during the year.

Respectfully submitted,

W. H. STURTEVANT.

Eastport, Maine, Feb. 10, 1917.

---

## HIGH SCHOOL REPORT

---

To the Superintendent and School Committee:

I have herewith the honor to submit my first annual report as principal of Boynton High School.

There is little use in complaining of our crowded conditions, because the new high school building will remove this situation for many years to come. This year, however, because of the exceptionally large class, we were compelled to utilize the top floor of the Brooks Building, and moved our commercial department down there. This, besides relieving the congestion at the High School building has afforded Mr. Sawyer better facilities and more room than he could enjoy at the High School.

This change was in reality made necessary by the employment of a new teacher, making at present five members of the faculty. This extra teacher has enabled us to offer two new subjects, French and Botany, and also to divide the classes, so that one teacher will not have more than thirty pupils in a class. It has also made it possible to give all English classes and Ancient History five times a week. The resulting advantages are obvious, and I will not recount them.

While I realize that next year it probably will be impossible to have another teacher, nevertheless one is badly needed. The assistant teachers, are overworked especially the language teacher, and do not have enough time to spend on individual work. In addition, the new building will permit of the introduction of new courses, such as manual training and domestic science. Furthermore, our enrollment is bound to increase both by more children attending from Eastport and in the number of tuition pupils from other towns. All these causes combine in making a new teacher a necessity, if the new building is to reach its highest efficiency.

The present faculty deserves a word, at least, of

praise. Labouring under discouraging physical conditions owing to the crowded building made lighter, it is true, by the helpful attitude of the pupils as a whole, and by the excellent condition in which we found the school, they, nevertheless have accomplished a great deal. They are all hard workers, and especially excel in the amount of individual attention given to delinquent pupils.

As I intimated above, the attitude of the school has been on the whole, good. While there have been a few unpleasant incidents, the discipline has been excellent. The pupils attitude toward their work is also good. While there is not as much home study as is necessary, yet, on the whole, the standard of scholarship has been high. The attendance, also, this year has been exceptional. For the fall term the average daily attendance was 96.3 per cent, a very commendable record. It has been the constant effort of the teachers to keep up to and improve this standing, and also to keep every boy and girl possible in school. Our efforts have been successful, for only three persons have left school, one moving away, and two entering the navy.

To my mind, our greatest need for next year is a sub-master who can take charge of the gymnasium and the athletic teams. The gymnasium in the new building makes such an instructor absolutely necessary. It would be impossible to admit the boys to the gymnasium without someone present to look after them. That has been proved this year. Furthermore, the principal has not the time to do it himself.

In addition, athletics are an almost necessary part of school life. The growing girl or boy needs some exercise, a great deal, in fact and owing to modern industrial conditions, athletic sports is the only outlet many boys have for their surplus energy. Again, the boys, whether under the name of the school or not, will have football and baseball teams. Properly directed,

under school control, with suitable eligibility rules, these games will prove a benefit to the school. If not properly directed, more harm than good is apt to result. Smoking and kindred vices, appear unless you have an instructor who has authority over the boys, and whom they will respect. Briefly, the above are a few of the reasons why a sub-master who has some knowledge of athletics should be secured.

In accordance with the practice of offering physics and chemistry in alternate years, physics will be given next year and some new laboratory equipment will have to be purchased.

New subjects being taken in experimental physics make the addition of new apparatus a necessity.

In planning for next year, the high school library should be carefully considered. The present library, while containing many valuable books, is out of date. If properly looked after, the library can be made of great service to the school and community. In order to accomplish this, however, many new books should be added. For instance, the encyclopedia now in use was published in 1894, the United States History in 1901, another in 1911, and the history of England in 1898. Other instances could be cited, but these few will suffice to show the cause of the complaint which some citizens have made to me that the high school graduates were poorly informed on recent important events.

An attempt has been made to remedy in part this condition by encouraging the pupils to use the public library, by subscribing to several periodicals and newspapers, such as *Leslies*, *The Outlook*, *The Boston Transcript*, and others. In addition a course in current events is offered during the winter term to the Commercial division of the Sophomore class. Furthermore the stirring events of the day are discussed in the English classes and in the General Science Class.

Singing has been taught this year, as in other

---

years. A voluntary class was formed, about eighty pupils entering, which has met every Wednesday and Friday morning. For an account of the work done I refer you to Miss Cook's report on another page.

The present book used every morning in the opening exercises is an admirable one, but there are only twenty or thirty in the school. For that reason, except when the chorus meets, we are restricted to a few songs which everyone knows.

If possible, preparation should be made to introduce manual training and domestic science into the High School in the near future. The idea that a High School is intended to prepare boys and girls for college has disappeared. About 36 per cent of the pupils in Boynton High are at present enrolled in the College Course. Of the remainder, over half are enrolled in the Commercial Course. The value of courses in Manual Training and domestic science cannot be over-estimated. The High School should aim to prepare its boys and girls for life. The arguments in favor of domestic science are obvious. Most girls marry and become homemakers. That they should receive some training for their future work goes without saying. Such a course would include instruction in cooking, sewing, simple dietetics, and in buying for the household. The arguments in favor of manual training are none the less weighty, if less obvious. Too many boys grow up without knowing how to use their hands. The purpose of such a course would not be to teach the boys trades, but to teach them the use of common tools, and to train them to use their hands deftly. The interest in manual training where it has been adopted has been instantaneous and generally unflagging, and the results accomplished far outweigh the time and money spent. For domestic science, a room could be fitted out in the new building, while for manual training another building would probably have to be used.

Following is the course of study used this year in Boynton High. Except for one or two minor changes it is the same as last year. French is offered in addition to German as a modern language, the commercial students are permitted to elect a modern language their sophomore year, and a term course in current events has been added.

#### FRESHMAN YEAR

College	English	Commercial
English (5)	English (5)	English (5)
Latin (5)	General Science (5)	General Science (5)
Anc. History (5)	Anc. History (5)	Anc. History (5)
Algebra (5)	Algebra (5)	Algebra (5)

#### SOPHOMORE YEAR

English (5)	English (5)	English (5)
Geometry (5)	Geometry (5)	Com. Arith. (5)
Latin (5)	Botany, Current Events (5)	Botany, Current Events (5)
French (5)	French (5)	Bookkeeping (5)
German (5)	German (5)	French (5)

#### JUNIOR YEAR

English (5)	English (5)	English (5)
Latin (5)	Chemistry (7)	Bookkeeping (5)
German (5)	Geometry, Algebra (2)	Commercial Law Banking (5)
Geometry, Alg, (5)	U. S. History (5)	Stenog'phy. (5)
Chemistry (7)	French (5)	Typewriting (5)

#### SENIOR YEAR

English (5)	English (5)	English (5)
Latin (5)	U. S. History (5)	U. S. History (5)
German (5)	Mathematics (5)	Stenography (5)
Mathematics (7)	Chemistry (7)	Typewriting (5)
Chemistry (7)		

Each pupil is required to take at least four courses, or 20 periods of prepared work a week.

Chemistry and Physics are offered in alternate years.

---

English and American History offered in alternate years.

My recommendation in regard to the course of study is, in general, to make it elastic. The college course, is in most part, held down by the requirements of the colleges, but in the Senior year, mathematics should be made elective, with History and Civics as an alternative.

In the Senior year of the commercial course either a science or modern language should be required. This would make the course better balanced, and also give the students the advantage of a broader range of study.

In conclusion I wish to thank the superintendent and the school committee for the uniformly kind and courteous treatment I have received and also for the many helpful suggestions they have given me.

Respectfully submitted,  
ASHLEY StCLAIR.

## REPORT OF THE SUPERVISOR OF MUSIC

---

To the Superintendent and members of the School Board:-

I herewith submit my first annual report as Supervisor of Music in the Eastport Public Schools.

This school year has been a very successful one. It has been a delight to work with the children who are very much interested and show improvement from week to week. In Grade 1, the music has consisted entirely of note singing and singing games. During the last half of the year all songs previously learned are sung with the syllable "loo." Much individual singing is done in this grade, and many children who were unable to sing in September can now sing all the songs in tune. Note singing, singing games and a few folk dances have been taught through the Primary grades. The fourth and fifth grades have learned to read by note and all new songs are now learned in this way. From the sixth grade on, the children are learning to carry two and three parts. Work is done in ear training, tone drill, scale and written work each week. Much technical work has been taught, beginning with the second grade.

In the High School a voluntary Glee Club has been formed. The work consists of a chorus singing of three parts, and exercises for general reading in music. The chorus very creditably entertained the Parent Teachers Association at one of the meetings during the Fall Term. The music in the High School has been the greatest problem and will not attain a very high efficiency until the grade children, who will then have had several years training, reach there and music will not be a new subject to them, as it is to many now.

A musical play is now under way entitled "The Land of Dolls." This will be given in a few weeks by children from grades two and nine.

---

I would suggest that music be a ranking subject and made to count toward promotion in the grades. This grading to depend not on the child being a good singer but on his ability to do the technical part and his effort in the vocal part.

Some new and more interesting music books are much needed in the grades, and would be much appreciated by both teacher and pupils, those now in use being in poor condition and old editions.

In closing I want to thank the Superintendent, teachers, the Woman's Club, and members of the School Board for their interest and co-operation in my work of trying to educate the children in the love for good music.

Respectfully submitted,  
CHARLOTTE J. COOK.

### Enrollment By Grades and Ages, September 11, 1916.

(To the air of "The End of a Perfect Day.")  
As we come to the end of this perfect day,  
The end of our school days too,  
And each heart sends forth its joyous lay,  
We resolve to be ever true.  
'Tis no fame is for him who will ever try,  
'Tis there's a treasure of greater worth—  
'Tis the friendship that links us with Boynton High,  
Which has no worldly girth.  
We have learned that he who would wish success,  
And would have a worthy name,  
Must ever and always strive for the best,  
E'en tho' it be hard to attain.  
So with this as our standard e'er borne high,  
As from each friend we part,  
May the lingering thoughts of this perfect day,  
Forever dwell in each heart.

—Amy C. Bogle.

## REPORT OF OVERSEER OF POOR

---

To the Honorable Mayor and City Council:-

Gentlemen:- I respectfully present to you a report for the year ending January 31, 1917. It has been the intention of this department to assist no one who was able to work and would not when there was opportunity.

There are families in this city, who, when there is no employment, struggle and get through the year with a little assistance from the city or some other source and return the amount expended without the knowledge of the public, whereas, if there were more work, which they want and are willing to do, there would be less need of philanthropy. They ask the right to work that they may live. These two rights should be provided for them.

More attention should be given to the elimination of child poverty. In doing this I believe you make possible a better citizenship. Poorly nourished children brought up in the home of incompetent and irresponsible parents are a bad investment.

The appropriation for this department was \$2,750.00, the expenditures were \$1,795.39, leaving a balance of \$954.61. Below are the different accounts:

Alms House,	\$ 295.59
Blackwood, Charles,	98.40
Childs, Mrs. George,	50.75
Cross, John,	45.95
City of Calais, (Robert Huntley)	3.25
Dean, C. K.	6.30
Denbow, Stephen,	57.40
Denbow, Mrs. Stephen,	24.75
Garnett, Abbie,	9.25
Harrington, John,	80.50
Holland, William,	22.00
Holland, Peter,	25.03

---

---

Homer, Mrs. Rose,	1.90
Hume, Robt.	48.00
Jinks, Matilda,	114.60
Marsh, Edward,	1.50
Marsh, Mrs. Annie,	61.30
McMasters, John,	78.00
Mills, Mrs. Annie,	37.39
Robinson, Mrs. H. C.	60.00
Sexton, John,	90.75
Scovil, Carrie,	89.75
Thompson, Mrs. John,	147.50
Tucker, Warren,	138.36
Tucker Children,	172.08
Tuttle, Samuel,	14.25
Tuttle, Mrs. Bertha,	25.00

**REPORT OF BOARD OF HEALTH**

---

To the Honorable Mayor and City Council:-

Gentlemen:- It is with pleasure that I submit to you my annual report as Secretary of the Board of Health. The Board consists of:

W. T. Spates, Term Expires, 1917; R. H. Lurchin, Term Expires, 1918; S. S. Saddler, Term Expires, 1919.

The number of contagious diseases reported are two. One of these was consumption and the other typhoid fever.

There are not any contagious diseases in the city today. Twenty three complaints and nuisances have been reported and all have been abated willingly, and we find everybody desirous of co-operating with us in this department.

Respectfully,

Sylvanus S. Saddler, Sec.

---

**REPORT OF INSPECTOR OF BUILDINGS**

---

To the Honorable Mayor and Board of Aldermen,  
City of Eastport, Maine.

Gentlemen:- I have the honor to submit herewith my report as Inspector of Buildings for the City of Eastport for the year ending January 31st, 1917.

Twenty-one permits have been issued classified as follows:

Erection of Mercantile Buildings,	2
Erection of Smoke House,	1
Erection of Store House,	1
Extension of Mercantile Buildings,	1
Extension of Wharf,	1
Erection of Dwellings,	8
Erection of Garages,	3
Erection of Fish House,	1
Alteration of Dwelling,	1
Alteration of Mercantile Buildings	2
Total,	21

Contractors and Builders have always shown a willingness to co-operate with this Department in every way. In cases of defective flues and chimneys in all cases where my attention has been called to same conditions have been remedied by the owners of the property.

Respectfully,  
JAMES H McDIARMID Inspector.

---

**REPORT OF CITY MARSHAL**

---

To the Honorable Mayor and Board of Aldermen:-

In compliance with the requirements of the City Ordinances, I have the honor to submit herewith the Annual Report of the Police Department, for the official year ending January 31st, A. D. 1917, classified as follows:

Intoxication,	190
Assault and Battery,	9
Committed to Bangor State Hospital,	2
Non-Support,	4
Larceny,	8
Breaking, Entering and Larceny,	3
Adultery,	4
Assault, With Intent to Rape,	1
Keeping House of Ill Fame,	1
Malicious Mischief,	1
Arson,	1
Abandonment of Child,	1
Search Warrant,	1
Total,	226

I desire to express my appreciation of the very courteous treatment which I have received at the hands of Mayor Fred T. Eldridge and the Members of his Council during the year, and to thank the Officers under me for the faithful and efficient manner in which they have supported me in the duties pertaining to the Department.

Respectfully submitted,  
HARRY L. FOLLIS, City Marshal.

---

**REPORT OF THE CHIEF OF FIRE DEPARTMENT.**

---

To the Honorable Mayor and City Council:-

Gentlemen:- As required by the City Ordinances, I herewith submit the following report of the Fire Department, entered January 30th, 1917.

The number of alarms responded to were thirty, which is again in excess of past years. As the majority of these fires were caused by carelessness it is evident that the people do not practise Fire Prevention. Again I would suggest that before starting fires in the Fall that all rubbish be removed from the premises, flues and chimneys be inspected. By lending this assistance it would greatly facilitate matters along the line of Fire Prevention.

Our city has recently been inspected by engineers from the New England Insurance Exchange, the outcome of which was increased rates throughout the residential section and in order to overcome this deficiency it is highly recommended by said engineers that the City purchase modern apparatus.

The fire alarm system under the engineer inspection was also criticized and suggestions were offered, which have previously been recommended. As it is for the City's interest to furnish such improvements that will benefit the public in so far as to lower the rates I earnestly recommend such improvements as the City can afford.

The suggestion of re-modeling the Boynton High School into a fire station whereby the stabling of the City team, together with all fire apparatus, may be under one roof, is one more step toward strengthening the efficiency of the department.

In conclusion I wish to thank his Honor the Mayor and City Council, Police Department, New England Tel. & Tel. Company for the courtesies rendered in the past year, also, the members of the Fire Department for their faithful service. Respectfully submitted,

Frank L. Bradish, Chief of Fire Department.

---

## REPORT OF LIBRARIAN.

---

To the Honorable Mayor and City Council:

The Library opened Thursday for the distribution of Fiction after being closed four weeks for the recataloging. The work is an immense one and will take a long time to complete but will probably never have to be done again. We are using the Dewey system which is in use in all the libraries. Shelves have been built around the reading room and filled with bound magazines for the use of the readers which makes it much more attractive.

One shelf has been glassed in to protect the book which Mr. Charles Eldridge presented to the library and which is a very valuable piece of workmanship. Since last year we have issued two hundred and thirty six new cards and have added 451 books.

### DONATIONS FOR THE LIBRARY

Fiction and Biography 106 vol Mrs. C. E. Martin.

Fiction 30 vol. Mrs. Witherell Estate.

Fiction 24 vol. Mrs. Charles Emery.

Fiction 32 vol. Mrs. W. S. Hume.

Set of Dickens, Mrs. Cogill.

Fiction 9 vol. Mrs. L. H. Newcomb.

Fiction 9 vol. Mrs. W. Beale.

Fiction 8 vol. Mrs. R. W. Gould.

Fiction 5 vol. Mrs. Fannie Bibber.

Fiction 5 vol. Miss Varney.

Fiction 5 vol. Mrs. Morse.

Fiction 1 vol. Mrs. Irving.

Fiction 1 vol. Mrs. Loomis.

Fiction 1 vol. Wm. Kane.

Fiction 12 vol. Mrs. H. E. Nicholas.

Boys books 35 vol. Oscar Whalen.

Girls books 3 vol. Mrs. H. E. Nicholas.

### For Reading Room.
