Attention Seaweed Harvesters

A DMR license authorizes the holder to harvest seaweed in compliance with Maine regulations governing cutting length and other conservation measures, from any area where seaweed may legally be taken. The holder of this license and any property owners must be aware that Maine's common law (meaning state law developed through court decisions) is not clear as to whether seaweed located in the intertidal zone (defined as the shores, flats or other land between the high and low water mark) is owned by the public generally or by the upland property owner. Therefore, since ownership of the seaweed in the intertidal zone is an unsettled question that only Maine courts can definitively answer, the State of Maine takes no position on (1) whether the public may harvest seaweed from those areas without interfering with the private property rights of the upland owner or (2) whether the upland property owners may prohibit the public harvest of seaweed in those areas.
