

## Demolition Permit Application

Demolition of a building means removal of the structure and restoration of established grade in a manner which will prevent the accumulation of stormwater without diverting it to adjacent properties. The demolition process requires the disconnection of all utilities prior to the permit being issued.

The undersigned applies to The City of Eastport for a Demolition Permit for the proposed work described herein. The applicant hereby certifies that all information contained in this application and any attachments are true and correct.

*Asbestos Abatement: A permit to demolish or remove the structure shall not be issued until the owner or agent notifies the enforcing agency that all friable asbestos or asbestos-containing material that will become friable during demolition or removal has been or will be properly abated prior to demolition.*

*A sewer cap off and cleanout verification inspection is required. Contact the CEO to 853-4300 to schedule the inspection.*
